# How to install TopChem2 under Windows

I) Installing an Ubuntu virtual machine under Windows

II) In your Ubuntu virtual machine, launch your browser and download the topchem2 archive (https://www.lct.jussieu.fr/pagesperso/pilme/topchempage.html)

III) In a terminal (console), install the software in your virtual machine:

A. Extract the files from the tar archive:

tar -xvf TopChem2_cube64_X_XX.tar.gz

B. Change the directory to where the files are located:

cd INSTALL_TOPCHEM64

C. Run the bash script installer, it does not require administrative privileges to run:

bash installer.sh
